SERVICE HEALTH DASHBOARD

OEM Visits	5
Service Consistency	Excellent
Accident History	No
Odometer Integrity	Yes
Engine Health	Sealed
Transmission Health	Sealed
Suspension	Original
Ownership Quality	Excellent

ODOMETER INTEGRITY ANALYSIS

● Integrity Status: Verified · Integrity Intact

First Recorded KM	1,001 km
Last Recorded KM (Service)	27,514 km
Current Odometer	28,504 km
Average Annual Usage	29,000 km/yr
Verified by Inspector	Yes
Gap Analysis Notes	No service gaps observed.

What It Means: Odometer integrity is one of the strongest trust signals in used-car evaluation. A consistent, plausibly-increasing reading across service visits indicates the kilometre count has not been tampered with.

Buyer Impact: A "Verified" status means usage matches service records — purchase confidence is high. "Suspicious" or "Tampered" status requires independent verification (RC scan, OEM service portal cross-check) before purchase.

QDrives Verdict: Regularly services at Agency

ACCIDENT & REPAIR HISTORY

No accident or major repair entries recorded.

COMPLETE SERVICE TIMELINE

Visit severity auto-classified: ● Normal · ● Minor · ● Moderate · ● Major

Date	KM	Workshop / Complaint / Work Done	Severity	Invoice
14 May 2026	27,514 km	MAHINDRA Performed: The vehicle was washed and cleaned, and customer-pay repairs were carried out for damage to the left side view mirror.	● Normal Maintenance	INR 0
